

## **APPOINTMENT OF THE INDEPENDENT FINANCIAL EXAMINER**

### **Albert Goodman**

Albert Goodman has been helping businesses prosper for over a century. Their team across the Southwest partners with clients to deliver ongoing accountancy, tax, financial planning and business advisory services.

They work with companies and groups across all sectors, including large corporate groups, not-for-profit organisations, international clients with UK subsidiaries and owner-managed businesses. Whilst predominately their client base is in the South West, their team works with companies all across the UK.

Their audit approach is built around an in-depth understanding of their clients. This enables a client-specific approach minimising disruption and focusing on the key matters within the business.

Michelle Ferris, Head of Charities, has been working in the charity sector for over 10 years. Michelle holds the Diploma in Charity Accounting, issued by the ICAEW to recognise exceptional expertise in the charity sector, and is helping develop the new SORP for charity accounting. Michelle is currently a Trustee of the Somerset Community Foundation, which gives her experience of being on the "other side".
